YOUR PERSONALIZED

At-Home Dry Eye Plan

PATIENT _____ DATE _____ FOLLOW-UP _____

Dry eye is a long-term condition, and what you do at home every day is what keeps in-office results lasting. Follow the steps your doctor checked below, **in this order**.

1 WARM — Heat therapy

Use a moist-heat eye mask for **10–15 minutes** to melt thickened oils in your eyelid glands.

- ☐ Once a day ☐ Twice a day ☐ Before bed
- ☐ Other _____

2 CLEANSE — Lid hygiene

Gently clean your lids and lash line **after heat** to clear oil, debris and bacteria.

- ☐ Once a day ☐ Twice a day ☐ Spray
- ☐ Wipes ☐ Foam

3 HYDRATE — Lubricating drops

Use preservative-free drops through the day. Use gels or ointments **only at bedtime** and never with contact lenses in.

- ☐ 2× a day ☐ 4× a day ☐ As needed
- ☐ Gel at bedtime

4 NOURISH — Supplement

Take an omega-3 supplement (re-esterified triglyceride form) **with a meal**. Results build over 2–3 months.

- ☐ 2 capsules daily ☐ 2 capsules twice daily
- ☐ Other _____

Everyday habits that help

20-20-20 rule
Every 20 minutes of screen time, look 20 feet away for 20 seconds.

Full blinks
Close gently and squeeze for 2 seconds, 10 times, a few times a day.

Protect the air
Use a humidifier, point vents and fans away from your face, and drink plenty of water.

Remove contact lenses before drops unless your doctor says otherwise. If you have pain, sudden vision change or a red, sticky eye, call us right away.
